European Journal of Pediatrics

Incorporating ACTA PAEDIATRICA BELGICA

Founded in 1910 by H. Finkelstein, L. Langstein, M. v. Pfaundler, C. v. Pirquet, and B. Salge as "Zeitschrift für Kinderheilkunde." From Volume 121 (1975)—Volume 125 (1977) on: European Journal of Pediatrics. Zeitschrift für Kinderheilkunde. From Volume 133 on: European Journal of Pediatrics. As of Volume 138 (1982): European Journal of Pediatrics. Incorporating Acta Paediatrica Belgica

---

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $ 0.20 per page, or a minimum of US $ 1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0340-6199, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Other regulations: Authors publishing in this journal can, under certain conditions, benefit from library and photocopy fees collected by VG WORT. Authors of German nationality and those resident in the Federal Republic of Germany or Berlin (West), as well as citizens of Austria, Switzerland and member countries of the European Community, may apply to Verwertungsgesellschaft WORT, Abteilung Wissenschaft, Goethestrasse 49, D-8000 München 2, for detailed information.

Index of key words

Abetalipoproteinemia 174
Abnormalities 243, 250, 252
–, minor 243, 250, 252
– –, in childhood malignancy 243, 250, 252
Acidemia 451
–, isovaleric 451
– –, carnitine 451
– –, glycine therapy 451
– –, isovalerylcarnitine 451
– –, lactic 451
– –, in pyruvate dehydrogenase deficiency 451
Acidosis 63
–, D-lactic 63
– –, in short bowel syndrome 63
Aciduria 177
– –, dicarboxylic 177
– – –, and Reye's syndrome 177
Activity 360
–, habitual physical 360
– – –, as health indicator 360
Acute rheumatic fever 53
– – –, lung function 53
Acyclovir 56
–, in neonatal herpes simplex virus infection 56
Adherence 230
–, bacterial 230
– –, uroepithelial cells 230
Adrenal hyperplasia 370
– –, congenital 370
– – –, chronopharmacology 370
– – – –, 9α-fluorhydrocortisone 370
– – – –, hydrocortisone 370
Adrenoleukodystrophy 430
Adults 182
–, lymphocyte subpopulations 182
– – –, autoradiography 182
– – –, immunoperoxidase 182
African children 32
– –, growth 32
– –, nutritional status 32
– – – –, arm fat and muscle areas 32
Age 88, 343
–, maternal 343
– – –, and Down syndrome 343
–, parental 88
– –, and febrile convulsions 88
AIDS 385
– – – –, in Zaire children 385
– – – – – –, liver fibrosarcoma 385
Alagille syndrome 236
– –, serum bile acids 236
Alpha 1-antitrypsin 391, 464
– – –, deficiency 391, 464
– – – –, chemotaxis defects 464
– – – –, genetic counselling 391
– – – –, heterozygous SZ phenotype 391
– – – –, neonatal jaundice 391
Alpha$_2$ HS-glycoprotein 368
– – –, protein-energy-malnutrition 368
Amaurosis 508
–, in sarcosinemia 508
Ambroxol 374
–, in cystic fibrosis 374
Amino acid disorders 508
– – –, sarcosinemia 508
Amnionitis 403
–, and unusual odours 403
– – –, in newborns 403
Androgens 467
–, in Diamond-Blackfan syndrome 467
–, in Fanconi anemia 467
Anemia 207, 301, 467, 554
–, aplastic 207, 467
– –, after lidocaine 207
– –, after phenytoin 207
–, Fanconi's 467
–, hemolytic 301
– –, in glucosephosphate isomerase deficiency 301
–, primary hypoproliferative 467
– – –, Diamond-Blackfan 467
– – –, Fanconi's 467
–, reversible 554
– –, after captopril therapy 554
Aneurysma 270
–, of renal artery 270
– – –, and hypertension 270
Antibiotics 494
–, and Clostridium difficile 494
Anticoagulant therapy 191
– –, in neonatal disseminated intravascular coagulation 191
Anticonvulsants 457
–, bone density 457
Antithrombin III 191
– –, in neonatal disseminated intravascular coagulation 191
Apnea 205, 539
–, obstructive sleep 205, 539
– – –, and foreign bodies 205
– – –, in SIDS 539
Arginase 571
–, in iminodipeptiduria 571
Arm 32
–, fat areas 32
–, muscle areas 32
– –, in African children 32
Arrhythmia 157
–, due to Legionella pneumophila infection 157
Arthrogryposis 288
–, in newborns 288
Asthma 164
–, exercise-induced 164
– – –, at high altitude 164
Attention 17
–, in adult PKU 17
Autoradiography 182
–, analysis of lymphocyte subpopulations 182

Bacteriuria 230
–, asymptomatic 230
– –, bacterial adherence 230
– –, uroepithelial cells 230
BFU-E 467
– –, androgen response 467
Bifidobacteria 186
–, in neonatal intestinal flora 186
Bile acids 236
– –, in Alagille syndrome 236
Biopterin 13
–, in atypical PKU 13
Biotin 21
–, intestinal absorption 21
–, renal excretion 21
Biotinidase 21, 563
–, deficiency 21
– –, carboxylase activities 21
– –, intestinal absorption 21
– –, renal excretion 21
–, in Rett syndrome 563
Birth order 88
– –, and febrile convulsions 88
Bladder 230, 234
–, control 234
–, in primary enuresis nocturna 234
–, defence mechanism 230
– – –, and asymptomatic bacteriuria 230
Blood 206, 225, 324, 360
–, cultures 206
– –, capillary sampling 206
– – – –, in newborns 206
